

- April 19 2007 - Dartmouth Nova Scotia -
 Dutch Naval Commander , Max Van Binsbergen ,
 Director Vertical Launch Systems Division
 NATO SeaSparrow Project Office
 presented an Award of Excellence to employees of
 Canadian Maritime Engineering Limited for their
 involvement in completing modifications to launch
 components of the SeaSparrow guided missile system .

Accepted by Dartmouth Nova Scotia company president,
 Tony Kennedy , this award acknowledges CME's
 contribution in the design and development of methods
 to accommodate next generation components.

The documented process is applied to Canadian as well
 as NATO warships. " Yes , this is rocket science. "

CME is a custom manufacturing and repair facility which
 specializes in the support of industry as well as marine
 and defense equipment and systems.
